The Judge professed to be friendly to harbor and river improvements, in support of which he read the resolution touching that subject in the Cincinnati Pistiorm, which it has never been denied was aimed against these improvements nor did the Judge hesitate in turther proof of his friendly views on this point, to endorse all the vetoes of Piercs of Appropriations on this betaile—which vatoes cut off appropriations on this betaile—which vatoes cut off appropriations for the harbors of Wisconsin.

The Judge denied the sontiment attributed to him in regard to slavery being the hominal and natural condition of the African laborer, and then [went into an ethnological argument to prove that the relation of master and slave is a necessity! The Judge is very learned and philosophical on this subject. Ho holds that there are four distinct races, the white, the black, the red and the yellow! That in the black, the red and the yellow! That in the black the heart and tho power to propagate prevail, while in the white, the interior propagate prevail.

Milwaukee, Oct. 25th, 1858. SHOOTING A HORSE,-A boy named JACOB BROHH WAS examined before Justice WALWORTH, resterday, on the charge of malicius tresspass,it shooting a horse on the pasture of his owner, a few miles north of this city, on the 20th inst.-There appears to have existed a feud between the owner of the horse and the boy's father, and it was claimed on this ground, that the deed was committed for reverge. The charge was not sustained, however, and the boy was discharged, the Court being satisfied that the shooting of the horse was accidental.

THE QUICKESS ON RECORD .- In speaking of quick trips yesterday, we stated that the clipper batk Badger State made her last trip to Buffalo and back in 14 days and 18 hours, having left this port two weeks ago Tuesday, and arrived here on Wednesday. We should have deducted from this, however, six days, four of which, she laid in Buffalo, and two in the St. Clair River .-Making this deduction, it will be seen she made the round trip in eight days sail. This is said to be the quickest time on record, and quite eclipses the Hans Grocker's fest time.

THE BESEFIT OF A PUFF. - We gave our Post Office managers a little puff, the other day, tir their admiral arrangement, by which we didn't get the papers that came by the evening mails, natil next morning, since which time our evening exchanges have, without exception, come to hand "on time."

A New Mode of Lacomotion .- Mr. Oschner, of Rotterdam, will stand on record as the first padoscapher. These podoscaphs are a species of sabot, about 15 feet long and 9 inches high (or deep.) Standing erect, the podoscapher, provided with a pole flattened at the end (for paddling), and 12 feet long, can advance, turn, or recede with great swiftness in water not deeper than the length of the pole. M. Oschner has won a wager by ascending the Rhine, from Botterdam to Cologne, in his podescaphe.

A STALE JOKE. The following tit-bit has been going the rounds of the press for at least two years. It seems to take well, for we have seen it published at least three times in the same Demebanci: Milwauker, in Wisconsin, rejoices in a law-

minususer, in visconing reloces in a har-biding people. There is a city ordinance which forpids swimming within the city limits, and one of its patriots, who slipped into the river the other day, went cheerfully to the bottom with-out a struggle rather than violate it.

R in fall's pet organs are openly fovoring the assumption by the state of all railroad indebtness, and if the Governor succeeds in getting toution of the next legislature, the State will be saddled with a debt of \$20,000,000, on which the people must pay interest every year, and in the end be taxed to pay the principal. I have seen it stated that all the Northern Democratic nominees for Congress are pledged to disrogard the provision in the conference oill requiring the ratio of population for a member of Congress before Kaness should be admitted into the Union. This provision, just in itself, necessary to fair dealing between the members of the Confederacy, was incorporated in the bill with more than ordinary legislative solemnity. It was an agreement entered into under circumstances which invested it with the enuclities of a compact. To it faith was plighted. It cannot be broken by the Northern party without perfidy. If it be true that the Northern Democratic nominees are pledged to violate it, then it shows to my upind that Northern fanaticism is increasing, and that resistance to it is giving way. my wind that Northern tanaticism is increasing, and that resistance to it is giving way.

If the North breaks upon the point, the ties between the two wings of the party will be weakned, if not dissolved. The South cannot hold communion with those who betrup faith and hound on faunticism. If Kansai is now thrust into the Union as a Free State, against and over the provisions of the conference bill; if the South is to be outraged, by seeing this Territory, with its rebellious and manauding population, and its licenticus and anarchial agitations, heaved and dragged into Federal sisterhood, in defence nd dragged into Federal sisternood, in definice of the law, and right, and instice, and right. and dragged into Federal sisterhood, in definice of the law, and right, and justice, and pleaged faith, then she must tear assurder party tier, and take her safety into her own hands. The fulfilment of the dond in the South must and will exact, and ony violation of it must be followed by retribution.

A SHARP EXTORT.—At the discussion between BILLINGHURST and LARRABKE, at Portsge City, on Tuesday last, the Judge in the course of his reply to BILLINGHURST, made some strong proselvery remark, which raised a weak hies from the further corner of the hall. The Judge instantly threw himself into an attitude and putting his hand behind an ear exclaimed, "I think I hear a snake." The Judge evidently did not relish the joke.

A Bor Curs A CRILD'S THROAT, - A singular crime was perpetrated in Detroit on Saturday. A colored boy about nine years old, named CHARLES POINTS, who had just served out a term in jail for theft, meeting a little boy named Daew, hardly five years of age, told bim to hold up his head and he would cut it off. The unsuspecting child oboyed, when Points immediately drew a kaifo across his throat, inflicting a gash about four inches in length. The dulmass of the knife alone prevented fatal consequences.

Not a single sliggition made against the Administration at Tarrytown has been proved files—not one. They stand before the people charging the Administration with being guilty of political turpicade and treachery, and for this reason I am rejoiced at the vindication of the people of Pennsylvania on the 12 h of October last. [Cheera.] I can very well imagine how Mr. [Cheers.] I can very well imagine how Mr. Buchanan feels at the present rooment; how he goes back over the unfortunate steps of the last two years; how he seeks excesse for the great disaster that has befallen himself and his policy. For in our State this was not a question of the Thirt of Beranne him. Tariff, or Reveous laws—it was simply an issue between Mr. Buchanan and the people upon his Kansas policy. There was not—there could not be—any pretext; the issue was fairly and fully tried, and the result is before the country. As Mercutic said, when he received the stab of the indignant Thibault, "the wound is not as deep as a well not wide as a church door, but it will do."

The same is directly before the people of Wisconsin. Charles Dunn, the Democratic candidate for Courgress in this district, is openly committed to the President's Kanasa policy. He is
nanounced as a Lecompton democrat in the orcons of the Damocraty. On the stamp before though this were a less manly or less bonorates calling, will not be particularly agreeable to the care of the great mass of Northern men, who are farmers, and toil with their own hands. The grand difficulty consists in the natural conflict between free and slave lator, of whatever sort, and wherever they exist. As the non-rlave-holding whites of the Sonth become more irred and more severe and threatoning.

A FIREMAN.—Look at the hero Carr, of Cincinati, who mounted the ladder and forced his constitution of the United States as a pro-slavery internment. He remounted the states are pro-slavery internment. He remounted the constitution which Jefferson, Adaptan he plunged into the flery abyes and brought out a child; again another child. There is no such a hero as that man on military record. He is worth all the heroes that stormed the Constitution placed upon it, and located of radius a monument to bin fame. But then he did raise a monument to bin fame. But then he did not kill support, and savery into all the territories now belonging to two children.—Gloucester, Mass., Telegraph.

The roal issue before the people of Wisconsin—the great question which is before the voters of this State on Tuesday next—is: "Do you or Days" tibuted, if not to my reputation, certainly to my notoriety. They have been printed more witerly, and abused more extensively, i think, the remarks of any one mun occupying so limited a space in the public mind. They were made deliberately, listened to patiently, and I am here to-night to say that I have nothing to receill. [Lond cheesing.]

WHAT? WHAY A DRAUTIFUL HEAD OF HAIR.

Beenies it is the ornament God Himself provided for all our race. Reader, although the rose may block ever so brightly on the glowing obert, the eye be ever so sparriling, the teeth be those of pears, if the head is bereft of its covering, or the bair be analysed and shrivated, Agrads and dry, or worse still, itspitultied with gray, nature will lose mere than half her charms. Prof. Words Hair Restorative, if need two or three times a week, will restore and permacauly secure to all such an ornament. Read the following and large. The writer of the first is the catebrated Plenist, Thaiberg:

Prop. O. J. Woon - Dear Sir. Some month ore six
weeks and I received a bottle of your Hair Restorative
and gave it to my will, who concluded to try it on her
half, little thicking at the time that it would restore the
gray hair to its origination; but to her, as well as my
surprise, after a low wessa' truit it has performed that
wonderful effect by toroing all the gray bar back to
brown, at the same time beautifying and disheming tha
hair. I stropply recommend the above Esstorative to
all persons in want of such a charactic their hair.
